### PROFESSIONAL SUMMARY

.NET Full Stack Developer with hands-on experience building enterprise web applications using React.js, ASP.NET Core Web API, C#, and SQL Server. Experienced in developing Master, Transaction, and Report modules for ERP and warehouse-management systems, integrating REST APIs, and writing stored procedures and complex queries for data-driven business logic. Strong foundation in database design, debugging, and full-stack problem solving.

### WORK EXPERIENCE

#### .NET Developer — Ess-Matrix Infotech, Chennai

Jan 2026 – Present

- Developing business web applications using React.js, ASP.NET Core Web API, C#, and SQL Server.
- Building Master, Transaction, and Report modules for ERP / inventory / warehouse-management systems.
- Developing and maintaining CRUD operations, form/data validations, API integrations, and database functionality.
- Implementing GRN label printing, reporting modules, and business workflow logic end-to-end.

#### Technical Support Engineer — Team Computers, Bangalore

Jul 2024 – Dec 2025

- Designed and supported database structures including tables, views, indexes, and complex join queries.
- Debugged PL/SQL procedures and functions to resolve data and application issues.
- Built reports and resolved production issues for retail store systems.
- Performed manual testing and provided ongoing application support.

### TECHNICAL SKILLS

**Languages & Frameworks:** C#, JavaScript, HTML5, CSS3, React.js, ASP.NET Core Web API

**Database:** SQL Server, PL/SQL, Stored Procedures, Views, Indexes, Complex Joins

**Core Competencies:** REST API Integration & Debugging, CRUD Development, Data Validation, Problem Solving

### PROJECTS

#### CoreMatrix Warehouse Management System

- Developed a full-stack warehouse management application using React.js, ASP.NET Core Web API, and SQL Server.
- Built Employee, Supplier, Item, Transporter, Purchase Order, and GRN modules end-to-end.
- Implemented CRUD operations, form validation, API integration, and SQL Server database operations.
- Delivered Purchase Order reporting and GRN barcode label printing features.

**Technologies:** React.js, ASP.NET Core Web API, C#, SQL Server, HTML, CSS

#### Nachi ERP — Master Data Modules

- Built and maintained multiple Master screens, including Supplier, Transporter, Item, and User Management.
- Developed and maintained CRUD operations for Master modules using ASP.NET and SQL Server.
- Implemented validations, stored procedures, and data binding across Master screens.

**Technologies:** ASP.NET, C#, SQL Server, HTML, CSS, JavaScript

### EDUCATION

**B.E. Electronics and Communication Engineering** — Sri Venkateswara College of Engineering, Chennai

March 2024 | 80%

Senior Secondary (Computer Science) — Adhiyaman Matric Hr. Sec. School | March 2020 | 77%

Junior Secondary — Jeeva Velu Matric Hr. Sec. School | March 2018 | 79%

### CERTIFICATIONS

- Joy of Computing using Python — NPTEL
- Python — StucorLearn
- SQL and Relational Databases — IBM
- .NET Full Stack Development Course — Softlogic Systems

### LANGUAGES

English, Tamil
